

Harp Career

Have people been asking you if you can teach them the harp?

Do you play the harp but do not consider yourself to be a teacher?

Are you already a teacher but looking to streamline your teaching business?

Then, this project is for you!

After many years of public and private school teaching and working individually with students, Christina Tourin has developed a program that benefits everyone involved.

BECOME A RAINBOW OF SOUND FACILITATOR

Harp Career

Details of the Package:

-  **Your initial outlay of approximately \$3747.50** (less than the cost of a Celtic harp!) is recouped in just 6 months. Your six harps are rented to six children (or adults) for a period of 2 months. Each person is part of the Rainbow thus making it 'necessary' to attend all 8 classes so that the Rainbow is complete!
-  **The parents pay a rental fee for the harp** for each of the 2 months plus 8 lessons. This is to be paid upfront guaranteeing you the income whether or not their child follows through or not.
-  **With each of the six children for the first round**, you will earn (approximately) 1/2 of your investment fee and by the time you have done two rounds, your investment is recovered. The rental of the harps then becomes all profit from that point on.
-  **You will work with the DVD's** - showing the children their lesson for that week. You will notice that some children will catch on quicker than others. Thus, after the 8 lessons, you can take the students on individually or in smaller groups of 2 or 3 and continue on with the DVD lessons.
-  **There are performance story lines** within the DVDs enabling you to have ready made recitals in place. [Here is a link](#) with a short demo of the first 2 DVDs.
-  **The contract forms, business guidelines** and suggested lesson plans are all in your How To Become An Effective Rainbow of Sound Facilitator manual.
-  **Harp Instructor, Carol McLaughlin, Harp Professor at the University of Arizona**, Tucson, AZ, and director of the famed Harp Fusion ensemble, commends this method as "exceptional" and suggests that this unique approach of learning how to play the harp be applied to college level harp study. Her own daughter studied the whole Rainbow of Sound series!
-  **For first time teachers, you'll have the tools that you need** to successfully begin people in your area playing harp whether it be at schools, churches, senior centers or a group of friends that have come to you.
-  **For those who are already actively teaching**, this method will add a new dimension to your beginning groups!
-  **Click here for ordering information.** There is a time wait while the harps are being designed for you of about 60 days. Consider now for the upcoming new semester at schools. Many of our facilitators are actually receiving funds from the school or other organizations to purchase the harps!
-  **We will be developing a list of Rainbow of Sound Ensemble Facilitators** as this program is launched. You can click on the above link to have your contact information included.
-  **Lastly, every other year, the World Harp Orchestra offers a performance** to raise money for relief aid. It is our intention that we will be including the World Harp Youth Orchestra, members from 200 countries around the world. We will be featuring Rainbow of Sound Ensembles as part of this Global Awareness on harp playing!!!
