Harpsicles™

by William Rees
-Package #1

Harpsicles™ - this is the basic harp. It has no levers and it does not have bridge pins which are needed for adding levers. It can be played in the key of C and A minor or tuned to any other scale. You can begin with this harp and learn the music of the first 3 books. To continue with the Rainbow of Sound™ Series, it would be wise to have the next harp called the Sharpie™. -This package comes with harp, Rainbow of Sound® Purple and Blue books and DVDs. There is no case. See below for case info. Weight - 4 pounds. Available in the following colors:

Sharpsicles™

by William Rees
-Package #2

Sharpsicle™ - this harp has levers on the Cs and Fs enabling you to play in 6 different keys. This harp is necessary to continue after book # 3 in the Rainbow of Soun® Series. This is likely the best buy to enable you to play for a long time without having to upgrade. The addition of the bridge pins on this harp allows you to add more levers in the future.

The package includes the Rainbow of Soun® Purple and Blue books and DVDs. The case is extra. You might also want to consider a harpstand or Harpsicle stick. Available in the above colors. Wait time - 3-4 weeks.

Fullsicles™

by William Rees
-Package #3

Fullsicles™ - this harp features a full set of levers enabling you to play in 8 different keys. As with Package 1 and 2, you will receive the Purple and Blue books and DVDs. The same colors and extra options are available.

For Packages #1, #2 and #3 - Cases, Harpstands and Harpsicle™ stick (a Harpsicle™ stick can be easily clamped to the inside of the access hole on the back of the harp, adding a horizontal bar which rests across your thighs - often called kneebones) are available.

♥ *County Kerry* ♥

by Jeff Gaynor

Package #4

The County Kerry Harp - also known as our official Planetree Hospital Harp, sits on its own base, is lightweight. A beautiful tone and has the capability of adding levers at a later date. This harp comes with its own case. Comes with Rainbow of Sound® Purple and Blue books/DVDs. Usually a 45-60 wait time. Weight 6.5 pounds.

Package #5

The gold-plated precision lightweight Truitt Levers are added on the Cs, Fs, and Bs enabling the player to play in 4 keys of music. This is the recommended harp for the Planetree Hospitals throughout the world. This is the harp we highly recommend for young children as it is the most stable standing upright without needing a stand. Comes with a case. Comes with Rainbow of Sound® Purple and Blue books/DVDs.

Package #6

The County Kerry Harp with a full set of the beautiful Truitt levers. Case included. Comes with Rainbow of Sound® Purple and Blue books/DVDs.

Christina Therapy Harp

Package #7

The Christina Harp is a top end professional harp with an exquisite tone. It is lightweight and has a wonderful resonance. If you are thinking of a great investment, this is the harp. Without levers (although they can be added later) you will also receive the Rainbow of Sound® Purple and Blue Books/DVDs. Wait time is usually 5-6 weeks and you can choose Cherry or Walnut, or also available in Bubinga and Maple although these woods are heavier. The eyelets at the base of the string have a lovely celtic design. You can purchase a lapbar or stand for \$40.00 extra.

Package #8

The Christina Harp is adorned with the precise lightweight Truitt Levers on Cs, Fs, and Bs. Metal levers give a crisp clear contact with the string and the Truitt Levers as opposed to some other metal levers to not add excessive weight to the harp, a big consideration when wearing the harp with a strap or extending it to a patient in our healing work. Same wait time and choice of wood as above. Weight 7 pounds.

Package #9

This in my opinion is one of the two ultimates in small professional superb harps. With all the options as the above two packages, this harp comes with a complete set of gold-plated Truitt levers making it possible to play in 8 keys of music and to play in the Angel and Middle Eastern modes.

Extras for package # 7,8,9.

Harp Stands - Lap Bar - Case - Backpack case

♥ *Raphael* ♥

by Harps of Lorien - Raphael Weisman

Package #13

The Raphael 26 Therapy harp is designed specifically for the work of bringing healing harp music to those in hospitals, hospices and nursing homes. It has a warm, resonant tone but is not overpowering when used in a close setting with a patient. Lightweight (7 lbs) and easily transported from room to room. In the making of the harps, prayers are said and the harp is blessed with mantras and healing intentions to carry the highest vibration possible. This harp has no levers and comes in Walnut or cherry.

Wait time is up to 6 weeks

Package #14

The same harp as described above comes with the Truitt levers on the F, C and B strings. The case is extra for these harps as well as lapbar and strap hardware.
